LinkedIn [[Link](#)] | GitHub [[Link](#)]

Final-year B.Tech (CSE - AI & Data Science) student with practical experience in web development, backend systems, and collaborative projects. Proficient in Python, SQL, TypeScript, and modern frameworks like Next.js. Passionate about building scalable software and contributing to impactful development teams. Seeking full-time opportunities in software development or DevOps.

PROFESSIONAL EXPERIENCE

Full Stack Intern - RD Infro Technology

Remote | Jan – Mar 2024

- Contributed to the development of a CRM dashboard using React, Html, CSS and JavaScript.
- Integrated MongoDB for real-time data management and lead tracking.

Python Developer Intern - Aavanto & Lorven Technologies

Remote | Jul – Sep 2023

- Developed basic automation scripts to parse data and generate reports.
- Built Python utilities to handle file manipulation and data filtering.
- Participated in weekly code reviews and agile sprints.

PROJECTS

SkillnGig – Skill-exchange web platform [[Link](#)]

- Developed a full-stack web app using Next.js, TypeScript, and Tailwind CSS,
- Implemented secure authentication with NextAuth (email/password).
- Built responsive UI components for user profiles and skill listings.
- Designed a modular structure to support future features like chat and search.

Task Manager Web App

- Built a to-do list app with HTML, CSS, Node.js, and MongoDB.
- Supported add/delete/edit functionality with persistent database storage.
- Implemented modular routes and RESTful API for task operations.
